Commission Schedule Addendum

Life Insurance Company of the Southwest (LSW) Products

First year commissions are based on premiums and credited during the first twelve months (first year) of the annuity contract. Renewal commission are based on premiums received in subsequent years. Both first year and renewal commissions exclude premiums returned or not taken for any reason. If any employer requires the waiver of any amount of Withdrawal Charge as a condition to transacting business with that employer, commissions will be reduced in any amount equal to the commission payable on the Withdrawal Charge so waived, but never to exceed the commission paid. First year and renewal commission shown are gross commissions. Actual commission paid are reduced by all commissions or service fees paid on the subject Policy to all Downlines.

Systematic transfers and exchanges of 403(b) monies and periodic rollovers of 403(b) premium to a 403(b) flexible premium annuity will be paid at full commission dependent upon the year in which they are received. Systematic transfers and exchanges are defined as those being made on an automatic basis (i.e. a settlement option) from another insurance company or a 403(b)(7) custodial account as a trustee to trustee transfer pursuant to applicable 403(b) regulations. Periodic rollovers are defined as those being made on an automatic basis which represent a series of direct rollovers of Eligible Rollover Distributions (as defined in Public Law 102-318) from a 403(b) retirement plan.

Service fees will be paid on premiums collected by the Insurer to the extent the commission schedules permit but only while the Field Contract remains in force.

Special variations of the products listed may be required for approval in certain school systems and/or states. This may require adjustments to this commission schedule.

Policies will not be eligible for commission payment pursuant to this schedule from and after the date the Insurer or National Life determines the policy holder owning such policy is not receiving adequate 403(b)/457 service pursuant to the Insurer, National Life and/or the subject plan's 403(b)/457 operating rules.

Commissions on policies issues as a replacement for another Insurer policy will be reduced according to National Life's rules in place at such time. Execution of a single case agreement will be required, which will set forth applicable commissions regarding the exchange (replacement).

Issue Age is determined by the actual age of the Annuitant.

National Life reserves the right to delay the payment of any commissions due until the Insurer has received the delivery receipt, if applicable, the required free look period has expired and National Life has determined that the subject sale met the Insurer's and/or National Life's standards for such sale in effect from time to time. No commission will be due on a transaction which does not meet such suitability standards.

*** Modified Commissions** are utilized in states that require a modified withdrawal charge schedule on select LSW annuities. See the National Life website for a listing of states requiring the modified withdrawal charge schedule.

Trail Commissions are the only payment available on certain policies and are optional on other policies. For policies where trail commissions are optional, the trail commission option is elected on a policy-by-policy basis by the writing agent. All **trail commissions** are vested and payable quarterly beginning at the end of the fifth policy quarter following the policy issue date. The **trail commission** rate shown is an **annual** rate, one quarter (1/4) of which is paid quarterly. Trail commissions payable are calculated based on the **Accumulation Value** on in-force policies where the Agent elected to be paid under the Trail Commission Schedule. In policy years 11+, trail commissions are not paid, instead non-vested service fees are paid while the Field Contract remains in-force.

Service Fees under the **Trail Commission Schedule** (not applicable to any other Service Fee) become vested to the writing agent provided:

- 1) The sum of the Accumulation Values of the policies for which the Trail Commission Schedule has been selected total at least \$1,000,000 **and**
- 2) The writing agent has been continuously appointed with the Insurer for 15 years, or has attained age 65 and has been continuously appointed for 10 years

The effect of vesting of Trail Service Fees is to remove the requirement for the Agent to be appointed with the Insurer to be eligible for such Trail Service Fees. All other conditions required for the Agent to be paid Trail Service Fees shall be unaffected by this vesting provision.
