Schedule A	All Years	2.50%	2.50%	

Notes:

- This schedule is for premium amounts up to each product's maximum premium limit.
- The commissions on any contract not herein specified shall be determined by the Company.
- The Company reserves the right to change any commission on this schedule, prospectively.
- Reduced commissions generally apply if the Company considers a contract to be an internal replacement.
- The oldest attained age of the owner, joint owner, or annuitant is used to determine commission payout.

Chargeback Rules:

- For most products, full and partial surrender (excluding free partial withdrawals) or death occurring in the first contract year will result in a 100% commission chargeback in months 1-6 and a 50% chargeback in months 7-12. For *Lincoln Deferred Income Annuity Solutions* and *Lincoln Insured Income Immediate Annuity*, 100% commission chargeback will apply when death occurs within the first 90-days of the contract issue date.
- For most products, annuitization in the first contract year, with the exception of *Lincoln New Directions*, will result in a 100% commission chargeback in months 1-6 and a 50% chargeback in months 7-12. In Florida, annuitization in the first five contract years will result in a 100% commission chargeback in months 1-6 and a 50% chargeback in months 7-60. For *Lincoln New Directions*, annuitization in the first two contract years will result in a 100% chargeback in months 1-6 and a 50% chargeback in months 7-24.

Additions and Trails:

- Additional commission rates shown for flexible premium annuity products are for additional premiums paid into the contract after year one.
- The trail shown is annual amount. The trail paid at the end of each quarter is the annual trail divided by 4. If monthly payments are requested, the trail paid at the end of each month is the annual trail divided by 12. Trails begin in second contract year (i.e. first payment in month 15 if quarterly trails, or first payment in month 13 if monthly trails). Trail commissions are a percentage of the accumulation value. Trail applies to all issue ages where trail is offered.
